*Citizenship: A Very Short Introduction* Sep 19 2019 Interest in citizenship has never been higher. But what does it mean to be a citizen of a modern, complex community? Why is citizenship important? Can we create citizenship, and can we test for it? In this fascinating Very Short Introduction, Richard Bellamy explores the answers to these questions and more in a clear and accessible way. He approaches the subject from a political perspective, to address the complexities behind the major topical issues. Discussing the main models of citizenship, exploring how ideas of citizenship have changed through time from ancient Greece to the present, and examining notions of rights and democracy, he reveals the irreducibly political nature of citizenship today. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

**Language, Immigration and Naturalization** May 28 2020 This volume focuses on the everyday legalities and practicalities of naturalization including governmental processes, the language of citizenship tests and classes, the labelling and lived experiences of immigrants/outsideers and the media's interpretation of this process. The book brings together scholars from a wide range of specialities who accentuate language and raise issues that often remain unarticulated or masked in the media. The contributors highlight how governmental policies and practices affect native-born citizens and residents differently on the basis of legal status. Furthermore, the authors observe that many issues that are typically seen as affecting immigrants (such as language policies, nationalist identities and feelings of belonging) also impact first-generation native-born citizens who are seen as, or see themselves as, outsideers.

[Debating European Citizenship](#) Feb 05 2021 This open access book raises crucial questions about the citizenship of the European Union. Is it a new citizenship beyond the nation-state although it is derived from Member State nationality? Who should get it? What rights and duties does it entail? Should EU citizens living in other Member States be able to vote there in national elections? If there are tensions between free movement and social rights, which should take priority? And should the European Court of Justice determine what European citizenship is about or the legislative institutions of the EU or national parliaments? This book collects a wide range of answers to these questions from legal scholars, political scientists, and political practitioners. It is structured as a series of three conversations in which authors respond to each other. This exchange of arguments provides unique depth to the debate

*Citizenship in Question* Oct 01 2020 Citizenship is often assumed to be a clear-cut issue—either one has it or one does not. However, as the contributors to *Citizenship in Question* demonstrate, citizenship is not self-evident; it emerges from often obscure written records and is interpreted through ambiguous and dynamic laws. In case studies that analyze the legal barriers to citizenship rights in over twenty countries, the contributors explore how states use evidentiary requirements to create and police citizenship, often based on fictions of racial, ethnic, class, and religious differences. Whether examining the United States' deportation of its own citizens, the selective use of DNA tests and secret results in Thailand, or laws that have stripped entire populations of citizenship, the contributors emphasize the political, psychological, and personal impact of citizenship policies. *Citizenship in Question* incites scholars to revisit long-standing political theories and debates about nationality, free movement, and immigration premised on the assumption of clear demarcations between citizens and noncitizens. Contributors. Alfred Babo, Jacqueline Bhabha, Jacqueline Field, Amanda Flaim, Sara L. Friedman, Daniel Kanstroom, Benjamin N. Lawrance, Beatrice McKenzie, Polly J. Price, Rachel E. Rosenbloom, Kim Rubenstein, Kamal Sadiq, Jacqueline Stevens, Margaret D. Stock

**High School Students Tackle Citizenship Test** Nov 21 2019 As a high school teacher of government and AP Us history, I found it compelling to prepare my students to be an educated electorate. In many cases, students did not go on to college, and this was the last opportunity I had as a teacher to inform them about the workings of the federal and state government. As a high school teacher of government and AP Us history, I found it compelling to prepare my students to be an educated electorate. In many cases, students did not go on to college, and this was the last opportunity I had as a teacher to inform them about the workings of the federal and state government. Several students were instrumental in creating an atmosphere of challenge and the desire to be more knowledgeable. As a result, I formulated a pretest that became the citizenship Test for my high school students in government. Since it is required in most high schools across the nation, other teachers might find this a good guidebook. That citizenship test and the student responses are the basis for this book, which I hope the readers will find enlightening and educational. This is my attempt to educate the electorate about basic information that every citizen should know about their government and maybe encourage them to want to know more.

**Citizenship and Security** Oct 21 2019 This book engages the intense relationship between citizenship and security in modern politics. It focuses on questions of citizenship in security analysis in order to critically evaluate how political being is and can be constituted in relation to securitising practices. In light of contemporary issues and events such as human rights regimes, terrorism, identity control, commercialisation of security, diaspora, and border policies, this book addresses a citizenship deficit in security studies. The chapters introduce several key political themes that characterise the interplays between citizenship and security: changes in citizenship regimes, the renewed insecurity of citizenship-state relations, the emerging ways by which the political and national communities are crafted, and the ways democratic societies and regimes react in times of insecurity. Approaching citizenship as both a governmental practice and a resource of political contestation, the book aims to highlight what political challenges and contestations are created in situations where security intensely meets citizenship today. This book will be of interest to scholars of security studies and security politics, citizenship studies, and international relations.

**Education for Democratic Citizenship** Jun 16 2019 The aim of the questionnaire, which formed the basis of this paper, was to collect information to test the theory that parents have a responsibility to pass on certain values and a social way of life within a family unit. It analyses the use of words, reactions and attitudes of non-governmental organisations in the sphere of citizenship. The questions focussed on three main areas: who spoke and in what circumstances; the meaning citizens assigned to certain terms; peoples attitudes to citizenship.

**Reforming the UK's Citizenship Test** Jan 04 2021 How many questions could you answer in a pub quiz about British values? Designed to ensure new migrants have accepted British values and integrated, the UK's citizenship test is often portrayed as a bad pub quiz with answers few citizens know. With the launch of a new post-Brexit immigration system, this is a critical time to change the test. Thom Brooks draws on first-hand experience of taking the test, and interviews with key figures including past Home Secretaries, to expose the test as ineffective and a barrier to citizenship. This accessible guide offers recommendations for transforming the citizenship test into a 'bridge to citizenship' which fosters greater inclusion and integration.

**Citizenship and Immigration** Jun 21 2022 "This is a superb piece of scholarship. Joppke manages to cover an extraordinary range of theoretical questions and empirical findings within a very compact and readable book. He coherently synthesizes and cogently brings together an array of different literatures that have often remained separate from one another. In doing so, he provides a 'state of the art' overview and analysis of the topics of citizenship and immigration." Marc Morjé Howard, Georgetown University "Citizenship and Immigration is an outstanding analysis of one of the most dramatic developments in the contemporary world, especially in Europe - namely the impact of immigration on the reconstitution of citizenship and of discussions thereof. It is essential reading for anybody interested in the contemporary scene." S. N. Eisenstadt, Van Leer Jerusalem Institute "Few scholars know the citizenship and immigration literature like Christian Joppke. In this tour de force, Joppke moves nimbly from social theory to current policy developments in Europe, North America and Australia. He paints a nuanced picture of the liberal evolution of citizenship, remaining attentive to governments' recent exclusionary moves. A must-read!" Irene Bloemraad, University of California, Berkeley This incisive book provides a succinct overview of the new academic field of citizenship and immigration, as well as presenting a fresh and original argument about changing citizenship in our contemporary human rights era. Instead of being nationally resilient or in postnational decline, citizenship in Western states has continued to evolve, converging on a liberal model of inclusive citizenship with diminished rights implications and increasingly universalistic identities. This convergence is demonstrated through a sustained comparison of developments in North America, Western Europe, and Australia. Topics covered in the book include: recent trends in nationality laws; what ethnic diversity does to social citizenship; the decline of multiculturalism yet continuing rise of antidiscrimination policies; and the new state campaigns to upgrade and re-nationalize citizenship in the post-2001 period. Sophisticated and informative, and written in a lively and accessible style, this book will appeal to upper-level students and scholars in sociology, political science, and immigration and citizenship studies.
