Summary of Tracy Schorn's Leave a Cheater, Gain a Life Jan 31 2020 Please note: This is a companion version & not the original book. Sample Book Insights: #1 The chump is the dullard whose inadequacies drove the cheater into another's arms. The chump is the co-conspirator who Must Have Known and had some tacit arrangement with the cheater. The chump is the failure who wasn't meeting the cheater's needs. #2 You don't deserve to be cheated on. It's not your fault that your partner is unhappy. The choices your cheater makes are 100 percent their own. #3 Chump blame is the act of trivializing the pain and suffering that comes from being cheated on. It faults trusting and believing in the commitments made to you, and it makes you feel foolish for having loved someone so unrequitedly. #4 The majority of infidelity resources promote the idea that you can save your marriage alone. They ignore the fact that many therapists still don't understand how personality disorders affect relationships.

Is Cheating a Deal Breaker In a Marriage? Jun 05 2020 The topic of marriage is challenging with itself, but when you add the element of cheating and you create a powder keg of emotions that can be expressed by every individual experience. Some arguments are based in reality while others take on a life of their own. Just like the rational and irrational person connected to the comment that is being articulated. Then you have to consider if the interested party has ever been in a serious committed relationship even similar or on the same level as the legally binding contract of marital matrimony. At which point the aspect of cheating must be applied as a term and condition included into the conversation that is being debated. I have never been married but I have been in situations that could have led to the engagement process but because my level of trust in the other partner was not sufficient to move forward in the procedure. I feel as if I could interject my opinion in the discussion otherwise I would have not even considered writing a book on this subject matter. It would have been silly of me unless I was a comedian or an ill-informed jester who is only interested in listening to the sound of my own voice. I am not clown or an investigative news reporter who thinks less of fact checking their source of information for flaws or inaccurate statistics. Relations and infidelity are issues that I am familiar with and I talk about frequently because they are very relevant and prevalent in American culture and around the globe. Now let's tackle the last portion of the equation. Cheating in itself is an act of deception. Most women are more troubled with the man that they love and care about lying to them than the physical act of intimacy. And most men are usually more upset that their lover chose a man of convenience who is usually a loser in everyday life that has nothing going for him. A broke bum is his replacement in so many cases. And when he finds out his anger burns hotter than the flames of the inferno of Satan's lair. Why would any wife choose a financially inept buffoon over a loving providing husband? Men are just as comical in their choice of replacement physical conquests. They usually choose a younger damsel in need of saving such as a stripper or escort of some type in search of a loving source of cash flow from an older gentleman known as a sugar daddy. He provides the cash and she supplies physical pleasure beyond his wildest dreams. She gives him the sense of virility and masculinity that he is missing at home. This in itself is a marriage of convenience and co-dependency that will continue until it is discovered by his loving spouse or another younger more excitingly exotic conquest comes along and rekindles his youthful illusions. These sexual acts create a delusional sensation as powerful as the most addictive drugs known to mankind. He will move like a panther stalking his prey to get that love making conquest one more time like a junkie anticipating their next fix. This is until his wife discovers his manipulative actions. At that point the storm erupts into massive devastation that can only be calmed by revealing each and every factual exploitation and explanation of his intimate encounters. Then the storm calms for a brief moment of reflection. Words and emotions become harder and harder to express between long-time lovers. Trust is broken and those warm feelings start to fade into the background. The broken-hearted spouse has several questions to answer. Will the candles of affection be lit again? And will they continue to burn or forever be smothered by the suspicion and the separation of divorce? These decisions are often difficult to make due to the magnitude of the consequences involved.

The Cheat on Summer Jun 17 2021 The cheat on Summer (The cheat but not cheating) emphasized on how to cheat and never get Caught. The cheat but not cheating is the ultimate guide to becoming a serial cheater with thousands of honest encounters over 14 years of tried and tested strategies by the author himself. The book includes safety rules for success and the skills you need to find your sex partner and keep coming back for more, and the author's secret weapon on how to impress your partner in some passion rocket fuel. According to my definition of infidelity - a breach of trust that occurs when you keep intimate and meaningful secrets from your primary romantic partner - the difference, if any, is not in the specifics of your behavior, but the depth of lies and secrecy. of this behavior has an impact on your partner. For example, your partner may not care that you have lunch with an attractive coworker every once in a while, as long as you're open, honest, and reply to it first. If you go to lunch with this coworker and keep it a secret, your partner may feel hurt, abandoned, and betrayed. This is true even if you have no sexual or romantic interest in your coworker. Cheating, microcheating otherwise, is not behavior but more about lying and keeping secrets and the impact of those lies and secrets on your partner. Of course, it's all subjective, depending on the couple and the relationship boundaries they've agreed to. This means that certain behaviors can be like being completely unfaithful to a couple, cheating on others, and not cheating on others at all. For example, some couples may think that using pornography while on a business trip is considered cheating while another couple may consider it cheating. cloth and another couple might think it's not a problem at all. The same can be said for flirting, texting, webcams, and more. I think it's important to point out here that much of what most people consider microcheating is relatively normal behavior both in and out of a relationship. If you see someone you find attractive and that person smiles at you, you will likely return your best smile, regardless of your relationship status

150 Reasons Why Married Women Cheat on Their Husbands Nov 30 2019 In the past, there have been more significant differences in the reasons why men cheat and why women cheat, with men cheating more for sexual variety and women cheating more because of relationship dissatisfaction. But nowadays, that gender gap in infidelity is closing: Men and women cheat for many of the same reasons and at similar rates. Whether it's physical or emotional, intimacy is one of those needs we all want to see met. If a woman isn't feeling intimately fulfilled in her relationship, and someone comes along who exhibits that type of intimacy, there will be an attraction. Some older research has found women tend to have a stronger emotional connection to the new person they're cheating with than male cheaters do, suggesting romance is part of the cheating equation for women. Sometimes people cheat because the new person gave them a new feeling or made them feel like someone else. "Women report that an affair lover makes them feel special, sexy, and adored, and that attention is hard to ignore, no matter what their spouse does at home." Cheating is, in all honesty, not that uncommon. If it happens in your relationship, that doesn't mean it has to be the end of the road for the two of you. If your man is cheating, it means you are not good at keeping a man happy. Happy men don't have the desire to cheat May 05 2020 First of all I recognize that this is a very touchy subject and I will try my best to keep this discussion in a positive and respectful light without any excessive censorship. This is an adult conversation and I do understand and comprehend that many people are "triggered" by their past life experiences. With that being said let the debate begin. My goal in writing this book is to let both the male and female species supply their own individual perspective and input into our dialogue. I am very sure that this will become a very heated argument on a gender biased level for sure and I respect everyone's personal thoughts, feelings, opinions, and input. I have the feeling that this is going to be a conversation for the ages. This will also be a very interesting social experiment and I am very much looking forward to reading these comments and interactions. This will definitely be a no holds barred adult level debate from unique and various points of view. I can already feel the tension and unrestrained and uninhibited energy pulsing at unimaginable levels of the hormones and chemical reactions of the male and female species.
