soil biology and biochemistry journal sciencedirect Dec 04 2020 the applications of new molecular microscopic and analytical techniques to understanding and explaining population and community dynamics is of great interest the journal also publishes state of the art reviews of contemporary research that present significant and novel hypotheses as well as comments and arguments about specific and often controversial aspects of life in the

molecular biology of the cell mboc Nov 03 2020 the american society for cell biology 6120 executive boulevard suite 750 rockville md 20852 usa phone 301 347 9300 fax 301 347 9310

bmc molecular biology home page biomed central Aug 12 2021 bmc molecular biology is now closed this journal has merged with bmc molecular and cell biology bmc will continue to host an archive of all articles published in bmc molecular biology and it will remain fully searchable via the bmc website how was your experience today rating a scale of 5 feelings conveyed using images that range from awful to great the feelings

international journal of molecular sciences scimago journal rank Jul 11 2021 the international journal of molecular sciences issn 1422 0067 coden ijmcfk issn 1661 6596 for printed edition provides an advanced forum for molecular studies in biology and chemistry with a strong emphasis on molecular biology and molecular medicine our aim is to provide rigorous peer review and enable rapid publication of cutting edge research to educate

journal of molecular histology home springer Jun 10 2021 22 11 2022 the journal of molecular histology publishes 6 times a year full length original research papers review articles short communications and letters to the editors coverage includes studies describing novel cellular or ultrastructural distributions of molecules which provide insight into biochemical or physiological

function development histological structure

american journal of respiratory cell and molecular biology Oct 14 2021 publishes the most significant and original observations in the area of respiratory and lung cell biology including cellular biochemical molecular developmental genetic and immunologic studies in health and in acute and chronic disorders related to the respiratory system and sleep

biochimica et biophysica acta bba molecular and cell biology of Jul 23 2022 bba molecular and cell biology of lipids publishes papers on original research dealing with novel aspects of lipid biology including the biosynthesis degradation and transport of lipids the role of lipids and the lipidome in cells and whole organisms and the regulation of lipid metabolism and view full aims scope

sense molecular biology wikipedia Mar 27 2020 in molecular biology and genetics the sense of a nucleic acid molecule particularly of a strand of dna or rna refers to the nature of the roles of the strand and its complement in specifying a sequence of amino acids citation needed depending on the context sense may have slightly different meanings for example negative sense strand of dna is equivalent to the template

american journal of respiratory and critical care medicine Jan 05 2021 15 11 2022 journal metrics impact factor 30 528 google h5 index 112 full text views 10 million more metrics most cited most read covid 19 does not lead to a typical acute respiratory distress syndrome gattinoni et al published online may 2020 clinical features of 85 fatal cases of covid 19 from wuhan a retrospective observational study du et al

journal of thermal biology sciencedirect com by elsevier Oct 22 2019 the journal of thermal biology aims to publish articles that advance our knowledge of how temperature influences humans and animals the principal focus of the journal concerns mechanisms and adaptations of organisms related to their thermal biology from the cellular to the organismal level the view full aims scope insights 1 2 weeks publication time the

molecular biology reports home May 21 2022 molecular biology reports mole is a peer reviewed general molecular biology journal which publishes sound science original research papers and review articles in all areas of molecular and cellular biology including results of both fundamental and translational research as well as new techniques that advance experimental progress in the field

cellular and molecular gastroenterology and hepatology journal Feb 06 2021 the mission of cmgh is to publish impactful digestive biology research that ranges from mechanisms of normal function to pathobiology and covers a broad spectrum of themes in gastroenterology hepatology and pancreatology the journal reports the latest advances in cell biology immunology physiology microbiology genetics and neurobiology of gastrointestinal

journal rankings on biochemistry genetics and molecular biology Oct 02 2020 international scientific journal country ranking also developed by scimago scimago institutions rankings scimago journal country rank menu home journal rankings country rankings viz tools help about us all subject areas agricultural and biological sciences arts and humanities biochemistry genetics and molecular biology business

american society for biochemistry and molecular biology Jun 22 2022 join a community of molecular life scientists the american society for biochemistry and molecular biology helps you excel at all stages of your scientific career through networking professional development meetings journals and leadership opportunities when you become an asbmb member you join more than 11 000 scientists worldwide working

genome biology and evolution oxford academic Aug 20 2019 the official journal of the society for molecular biology and evolution publishes original research on the evolutionary advances at the forefront of genomics we use cookies to enhance your experience on our website by continuing to use our

biochimica et biophysica acta bba molecular basis of disease Sep 20 2019 bba molecular basis of disease addresses the biochemistry and molecular genetics of disease processes and models of human disease this journal covers aspects of aging cancer metabolic neurological and immunological

based disease manuscripts focused on using animal models to elucidate biochemical and mechanistic insight in each of these conditions

[the international journal of biochemistry cell biology](#) Apr 27 2020 [ijbcb](#) publishes original research articles invited reviews and in focus articles in all areas of cell and molecular biology and biomedical research topics of interest include but are not limited to mechanistic studies of cells cell organelles sub cellular molecular pathways and metabolism nov view full aims scope

molecular biology and evolution oxford academic Feb 18 2022 google h5 index 79 3rd in evolutionary biology source journal impact factor from clarivate 2022 collections machine learning collection explore our new collection of papers on the applications of machine learning in the field of molecular biology and evolution browse now emerging classics every year mbe looks at the papers published in the journal having a

the american society for cell biology a global cell biology Nov 22 2019 01 11 2022 molecular biology of the cell [mboc](#) molecular biology of the cell is a premier journal for research in all areas of cell biology from biophysics to genetics to neuroscience its 26 online issues per year include special issues in the important areas of quantitative cell biology and forces on and within cells readers and authors alike

molecular plant molecular plant cell Apr 08 2021 *molecular plant* is dedicated to serving the plant science community by publishing novel and exciting findings with high significance in plant biology the journal focuses broadly on cellular biology physiology biochemistry molecular biology genetics development plant microbe interaction genomics bioinformatics and molecular evolution

journal of molecular biology sciencedirect com by elsevier Sep 25 2022 journal of molecular biology [jmb](#) provides high quality comprehensive and broad coverage in all areas of molecular biology the journal publishes original scientific research papers that provide mechanistic and functional insights and report a significant advance to the field the journal encourages the submission of multidisciplinary studies that use complementary

[molecular biology latest research and news nature](#) Aug 24 2022 11 11 2022 molecular biology is the field of biology that studies the composition structure and interactions of cellular molecules such as nucleic acids and proteins that carry out the biological processes

journal of chemical information and modeling Jun 29 2020 view virtual issues from journal of chemical information and modeling journal of chemical information and modeling is a transformative journal journal of chemical information and modeling has been certified as a transformative journal by coalition s committing to a transition to 100 open access in the future if your research funder has signed plan s your open

journal of molecular structure sciencedirect com by elsevier Sep 13 2021 the journal of molecular structure is dedicated to the publication of full length articles and review papers providing important new structural information on all types of chemical species including stable and unstable molecules in all types of environments vapour molecular beam liquid solution liquid crystal solid state matrix isolated surface absorbed etc

[algorithms for molecular biology home page](#) Sep 01 2020 [algorithms for molecular biology](#) publishes articles on novel algorithms for biological sequence and structure analysis phylogeny reconstruction and combinatorial algorithms and machine learning areas of interest include but are not limited to algorithms for rna and protein structure analysis gene prediction and genome analysis comparative sequence analysis and

plant molecular biology reporter home springer May 29 2020 16 11 2022 the journal *plant molecular biology reporter* publishes new developments in plant molecular biology molecular physiology plant genetics and genomics plant comparative transcriptomics proteomics and metabolomics the journal welcomes papers covering breakthrough technologies and discoveries in these areas which will advance the knowledge

stanford university highwire press Jan 25 2020 division of the stanford university libraries producing online versions of peer reviewed journals and scholarly content

molecular imaging and biology home springer Apr 20 2022 11 11 2022 molecular imaging and

biology is ranked 15 in the google scholar h 5 index of nuclear medicine and radiotherapy with a 2019 h 5 index of 31 why publish with us we are the official journal of the world molecular imaging society wmis the european society for molecular imaging esmi and the federation of asian societies for molecular imaging

cellular and molecular life sciences home May 09 2021 23 11 2022 the multidisciplinary journal cellular and molecular life sciences cmls publishes research articles reviews cmls forum reviews and visions reflections articles covering the latest aspects of biological and biomedical research the journal will consider contributions focusing on biochemistry and molecular biology cell biology molecular and

cellular and molecular biology open access journals Oct 26 2022 2021 journal impact factor was established by dividing the number of articles published in 2019 and 2020 with the number of times they are cited in 2021 based on google scholar citation index database if x is the total number of articles published in 2019 and 2020 and y is the number of times these articles were cited in indexed journals during 2021 then journal impact factor y/x

plant molecular biology home springer Jul 31 2020 21 11 2022 plant molecular biology is an international journal dedicated to rapid publication of original research in all areas of plant biology since its founding in 1981 it has continually ranked among the leading journals coverage addresses important biological problems of broad interest coverage includes research in comparative genomics functional genomics proteomics

american journal of physiology lung cellular and molecular physiology Nov 15 2021 the american journal of physiology lung cellular and molecular physiology publishes original research covering the broad scope of molecular cellular and integrative aspects of normal and abnormal function of cells and components of the respiratory system areas of interest include conducting airways pulmonary circulation lung endothelial and epithelial cells the

molecular phylogenetics and evolution journal Dec 16 2021 molecular phylogenetics and evolution is dedicated to bringing darwin s dream within grasp to have fairly true genealogical trees of each great kingdom of nature the journal provides a forum for molecular studies that advance our understanding of phylogeny and evolution further the development of phylogenetically more accurate taxonomic classifications and ultimately

international journal of molecular sciences an open access journal Mar 19 2022 international journal of molecular sciences is an international peer reviewed open access journal providing an advanced forum for biochemistry molecular and cell biology molecular biophysics molecular medicine and all aspects of molecular research in chemistry and is published semimonthly online by mdpi the australian society of plant scientists asps

the journal of physical chemistry b american chemical society Dec 24 2019 03 08 2014 the journal of physical chemistry b has been certified as a transformative journal by coalition s committing to a transition to 100 open access in the future if your research funder has signed plan s your open access charges may be covered by your funder through december 31 2024 please visit the acs open science website for more information current

home page journal of biological chemistry Jan 17 2022 21 11 2022 the journal of biological chemistry jbc welcomes high quality science that seeks to elucidate the molecular and cellular basis of biological processes papers published in jbc can therefore fall under the umbrellas of not only biological chemistry chemical biology or biochemistry but also allied disciplines such as biophysics systems biology rna biology

physiology and molecular biology of plants home springer Feb 24 2020 24 11 2022 journal information editor in chief rana pratap singh n raghuram publishing model hybrid how to publish with us including open access journal metrics 3 023 2021 impact factor 3 442 2021 five year impact factor 30 days submission to first decision median 133 184 2021 downloads

journal of molecular cell biology oxford academic Mar 07 2021 to help researchers better understand the biology of sars cov 2 and promote the development of effective diagnostic therapeutic and preventive approaches journal of molecular cell biology jmcb is pleased to present a

collection entitled understanding sars cov 2 and its clinical world browse the articles
