[The Sterling Submachine Gun](#) Jul 14 2021 Designed by a motorcycle racer turned small-arms engineer, George Patchett, the submachine gun that eventually became known as the Sterling was developed during World War II. Some suggest it first saw action during Operation Infatuate with No. 4 Commando, before becoming fully adopted by the British Army in 1953 as the Sterling Machine Carbine (L2A1). It was centre stage for many of Britain's post-colonial conflicts from Malaya to Kenya and from Yemen to Northern Ireland. The silenced L34A1 Sterling-Patchett entered service in 1966 and first saw action deep in the jungles of Vietnam in the hands of the elite special forces of Australia, New Zealand and the United States during prisoner snatches and reconnaissance patrols. Employing first-hand accounts and painstaking technical analysis, this engaging account features carefully selected archive photography and specially commissioned colour artwork depicting the submachine gun that armed British and other forces for nearly 60 years.

[Same Planet, Different Worlds](#) Jul 02 2020 This book is for the Ministry of Defence Police constables whose professionalism, dedication and commitment was tested and proved beyond doubt, whilst seconded to the United Nations Interim Administration Mission in Kosovo. After years of relative boredom and the humdrum of repetitive plodding behind Coulport's protective security fences, John Duncanson, and a selection of his fellow police officers, chose to temporarily rid themselves of the adopted tag 'glorified security guards' by volunteering for a United Nations peacekeeping deployment to Kosovo. Little did they know what waited for them as they stepped onto the tarmac at Pristina airport but they were soon to learn as they had to adapt to living on the same planet, but a totally different world...

[The Collected Mystery Stories](#) Apr 30 2020 71 brilliant stories from Lawrence Sanders - non-stop suspense from the grandmaster of crime. Grandmaster and Edgar award-winning author Lawrence Sanders has brought together 71 of his best stories featuring his most popular series characters. [Commando Tactics](#) Nov 25 2019 British commandos are among the most celebrated soldiers of the Second World War. Their daring, ingenuity and bravery have given rise to an almost legendary reputation that makes it difficult to appreciate fully their role and their true value as fighting men. Stephen Bull, in this in-depth study of commando tactics and history, seeks to dispel the myths and the misunderstandings that surround them, and he places these elite troops of 70 years ago in the context of their times. He also demonstrates that the idea of the commando took time to develop and that commando operations were far from always successful. Commando tactics amphibious, mountain, close quarter were forged through the often-painful experience of raids and combined operations. And commando tactics and organization remained in a state of flux throughout the war as new situations and challenges arose. Stephen Bull's vivid account will be essential reading for anyone who is interested in commando fighting techniques and the early history of special forces.

[The Ultimate Basic Training Guidebook](#) Dec 07 2020 How to prepare—mentally and physically—for life in the armed forces. Making the transition from

civilian to soldier can be tough. Knowing what to expect can help. In this guide, Michael Volkin, who enlisted in the US Army after 9/11—and found himself unprepared for the new world of the military with its unknown acronyms, demanding exercises, and other challenges—provides valuable information about the process. During his own basic training, he began taking extensive notes, and while serving in Iraq he interviewed hundreds of other soldiers—in order to put together this book in the hopes of making things easier for future recruits in any branch of the armed forces. The Ultimate Basic Training Guidebook offers: Step-by-step instructions and solutions Helpful charts and graphics A special eight-week fitness program specifically designed to improve your fitness test scores Study guides A list of what to bring (and what not to bring) to basic training And much more
